**Look what you made us do!** We created the “Classical Music Eras Tour” just for you! This musical journey takes students through the rich history of Western classical music, highlighting some of the greatest orchestral works of all time. Just as Taylor Swift’s iconic tour spans different eras of her musical career, this concert features classical music from the Baroque period to modern day and everything in between.

Learn about the characteristics, composers, and significant works of each period while listening to music that **never goes out of style**. From the intricacy of Bach and elegance of Joseph Bologne, to the warmth of Brahms and contemporary flair of Unsuk Chin, this tour highlights the evolution of classical music through the eras.
